

## Production Notes

Many thanks are given to the editorial team which tackled proof-reading and copy-editing for these *Proceedings*. In addition to *Proceedings* Editor Mimi Burbank, this team consisted of Anita Hoover and Christina Thiele.

The T<sub>E</sub>X source code for each article in this issue of *TUGboat* was transmitted via network or DOS floppy diskette to the editors who then used Northlake Software's T<sub>E</sub>X running under VMS or Unix T<sub>E</sub>X to generate dvi files. All \special commands were converted to appropriate form for Radical Eye Software's dvips, and proof output was printed on an Apple LaserWriter NTX. Although color PostScript was supplied by at least one author, such files could not be handled by the editors (apparently) because file record lengths were too long.

dvi and PostScript graphics files were FTP'd to the American Mathematical Society, and final copy was produced on the Society's APS  $\mu$ -5 and Agfa-Compugraphic 9600. The density of type produced on these two machines was not identical, and this was the source of some mismatches of "color" readers may see on the printed pages.

No figures were cut into pages; all were produced by incorporating 300dpi images into PostScript files.

## Trademarks

Many trademarked names appear in the pages of *TUGboat*. If there is any question about whether a name is or is not a trademark, prudence dictates that it should be treated as if it is. The following list of trademarks which appear in this issue may not be complete.

APS  $\mu$ 5 is a trademark of Autologic, Inc.

DOS and MS/DOS are trademarks of MicroSoft Corporation

LaserJet, PCL, and DeskJet are trademarks of Hewlett-Packard, Inc.

METAFONT is a trademark of Addison-Wesley Inc.

PC T<sub>E</sub>X is a registered trademark of Personal T<sub>E</sub>X, Inc.

PostScript is a trademark of Adobe Systems, Inc.

T<sub>E</sub>X and A<sub>M</sub>S-T<sub>E</sub>X are trademarks of the American Mathematical Society.

UNIX is a trademark of AT&T Bell Laboratories.
